## Experience

### Charles River Development, A State Street Company

#### Software Engineer II

July 2019 – Present

- Implementing next-generation Angular web applications utilizing gRPC backend web services
- Integrating MSCI with the Charles River IMS, allowing clients to utilize MSCI portfolio and risk analytics
- Implementing core enhancements by learning the underlying business concepts of financial risk

#### Software Engineer I

July 2017 – July 2019

- Integrated components of the Axioma Portfolio Optimizer into the Charles River IMS
- Collaborated with third party vendors to solidify the integration of the Northfield Portfolio Optimizer with the Charles River IMS
- Developed and maintained the first suite of in-depth, automated UI tests

#### Software Engineer Intern

June 2016 – Aug 2016

- Contributed to UI changes that would be released in the final product
- Implemented and maintained the first suite of automated UI tests to ensure functionality of the client

### MarketMuse

#### Software Engineer Intern

May 2016 – Aug 2015

- Rewrote the web scraping middleware
- Enhanced the quality of parsed website data used for content analytics and content creation
- Improved the content that clients were receiving for their content marketing

## Education

### University of Massachusetts Amherst

Computer Science

Sept 2013 – May 2017

- GPA: 3.692
- Dean's List Honors

## Projects
